Lukla Flights

The primary gateway to the Everest Base Camp Trek is via a flight to Lukla (2840m), which lands at one of the world's most extreme airports: Tenzing-Hillary Airport. Positioned on a narrow plateau above a steep cliff with a short and narrow runway, the flight itself is as thrilling as it is challenging. Weather conditions here are notoriously unpredictable, with visibility shifting rapidly, which adds a layer of excitement to the journey.

Ramechhap Airport

During the busy trekking seasons in spring (March, April) and autumn (October, November), Kathmandu Airport faces significant congestion, leading most flights to Lukla to operate from Manthali Airport in Ramechhap, approximately a 4-5 hour drive from Kathmandu. To avoid this drive, you can opt for a helicopter flight from Kathmandu, though this is an additional expense.

Weather

Flights to Lukla are dependent on clear weather and stable conditions. Delays or cancellations are common due to sudden shifts in weather, which may extend your trekking plans by a few days. We recommend adding buffer days to your itinerary to mitigate any disruptions to your return travel plans.

In the event of prolonged delays, a helicopter transfer to Lukla is an alternative, although this incurs additional costs and is not included in the standard trek package. While helicopters can operate in some conditions that planes cannot, extreme weather can ground them as well. In such cases, we will endeavor to arrange a helicopter charter, subject to availability and weather permitting. Please note, helicopter availability is limited and may lead to delays.

We ask for your flexibility and understanding in these situations. If weather conditions prevent flights for an extended period, an alternative is to drive to Tham Danda—a challenging 20-hour journey—and begin the trek from there. This route is prone to difficulties, especially in adverse weather, requiring extra days and considerable patience.

Should conditions make the Everest Base Camp Trek unfeasible, we can redirect to other treks such as Annapurna Base Camp or Langtang Gosainkunda. While these treks do not lead to Everest Base Camp, they offer stunning views and rewarding experiences.

Your cooperation and flexibility are crucial in navigating these complexities, ensuring a memorable and enjoyable trekking experience regardless of the route.
