

## Tamang Heritage Trail - 10 Days

**"Somewhere between the start of the trail and the end is the mystery of why we choose to walk."**

Explore untouched natural splendor and unexploited cultural beauty of Langtang region with off the beaten and less trodden Tamang Heritage Trail. The trekking trail is named after 'Tamang,' one of the ethnic groups in Nepal of **Tibetan origin**. As you walk along the wild terrains of the Tamang Heritage Trail, you get an opportunity to get deep insights into Tibetan culture.

Although the trail is in the popular [Langtang region](#), perhaps the most accessible trekking region from Kathmandu, it is a non-crowded and newly opened trekking route to explore best kept secrets of the Langtang region. Passing through alpine terrains, meadows and rhododendron forests, the trail takes you into Tamang settlements where you can share moments with **Tamangs** and learn their unique culture.

After sightseeing of several [UNESCO's world heritage sites](#) in Kathmandu valley, we drive to Syabrubesi from where the actual trek begins and ends. In comparison, traversing the route, you admire Himalayan peaks' panoramic view, including Ganesh Himal, Langtang Lirung and several others. Finally, you step off the typical tourist route to enter Tamang hinterlands to explore areas that still needs exploration.

The trekking route takes you into picturesque Tamang villages like **Gatlang** and **Briddim** where you get to meet and greet Tamang communities. Tamangs famous for their unique culture wear colorful dresses, and their houses are decorated with beautiful woodcarvings. You also get to visit **Tatopani** where you can relax taking healing bathe in hot springs before reaching Nagthali. Tamang Heritage Trekking is for those who want to see preserved culture of local villagers along with natural beauty.

Explore the areas where many have not reached and nature has not been rearranged by the hand of man. Tamang Heritage Trek is a moderate trek and anybody with reasonable fitness who can walk at least 5-7 hrs a day can accomplish it successfully. **Autumn** (September to November) and **spring** (March to May) are the best seasons for this trek considering weather and temperature. However, if the cold temperature is suitable for you, you can do it during winter too.
